

Storytelling Through Cocktail

Your wedding shouldn't feel like a template.
Every function, every drink, every tiny detail
can reflect your story as a couple.

Moodboard Driven

Every function, a different vibe

Your Haldi, Sangeet, Wedding & After Party can all feel completely different.

Cocktails, glassware, bar décor, props and bartender costumes can all be curated based on your moodboard and theme.

Your Love Story

Tell your story through cocktails

Where did you meet?

What was your first date?

What do you love doing together?

Your cocktails can be inspired by your memories.

Memory Lane Menu

A cocktail menu inspired by your journey

Each cocktail represents a moment in your relationship.

Examples:

- * The First Date
- * The First Trip
- * The "I Love You"
- * The Proposal

Guests don't just drink cocktails
they experience your story.

Timeline Bar

A bar that follows your love story

Create a timeline through drinks.

Cocktails named after milestones like:

- * How We Met
- * First Vacation Together
- * Moving In
- * The Proposal

Each drink becomes a chapter of your relationship.

Interactive Love Story Menu

Let your guests explore your story

Add a QR code on the cocktail menu where guests can read the story behind each drink.

Or include small notes like:

"Inspired by our first trip to Bali."

"This was the drink we had on our first date."

Example

First date at Cheesecake Factory?

Let's create a Cheesecake Cocktail.
Creamy, dessert-inspired, nostalgic.

Nothing is impossible when we design
cocktails around your story.

Theme Based Service

Your theme = our presentation

Arabian theme?

Serve cocktails in Aladdin lamps, chalices and brass goblets.

Tropical theme?

Serve them in tiki mugs, coconuts and pineapples.

Tiny Details Matter

Even the smallest details can be personalized

Custom:

- * Coasters with your story
- * Drink stirrers with your initials
- * Cocktail napkins with inside jokes
- * Ice cubes with edible flowers or logos

Every love story is beautiful, but ours is my favorite.
